# Coverlet®

## Extremely Absorbent Bandages.

For maximum absorption and protection, give your patients Coverlet Adhesive Bandages to aid in their healing process.

Coverlet Adhesive Bandages are made to absorb liquid fast; faster than any of the competitors tested.\* In addition, every Coverlet features an extra-large wound pad capable of absorbing 10 times its own weight in water. The 360-degree adhesive surrounding the island pad helps seal the afflicted area from dirt and contamination – keeping wounds clean and providing an environment conducive to healing.

Now available in 13 different shapes and sizes, Coverlet is perfect for use on knees, elbows, chins, noses and knuckles. Its elastic fabric moves with the curves and contours of the skin and body, sticking with your patients wherever they go.

Product		Reference Number	Box Contents	Case Contents	Description
<b>Strips</b>		00230	100	12 Boxes	3/4" x 3"
		00231	100	12 Boxes	1" x 3"
